PNG-1

PINK NOISE GENERATOR

OPERATION INSTRUCTIONS

1. Remove bottom cover and connect battery.
2. Depress on/off switch to turn PNG-1 on.
3. Adjust volume control to loudest comfortable level.
4. If using more than one PNG, place PNG's within room, separating the areas of the room into approximately equal parts.
5. If the room has a suspended ceiling, the PNG should be placed above the ceiling tiles to defeat any device installed in the ceiling. The volume of the PNG can also be set higher since the ceiling will lessen the amount of sound reaching the occupied office area.
